PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building scalable SaaS products for an email and collaboration platform using React, Next.js, Vue.js, TypeScript and React Native. Hands-on with authentication (OIDC, MFA), API integration, admin dashboards, billing workflows, Cloudflare deployments and mobile app releases. Led a frontend team, designed UI in Figma, and delivered production features across Mail, Admin, Billing, Account and Webmail products.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS/Sass, Python, SQL

Frontend: React.js, Next.js (App Router), Vue.js (Composition API, Pinia), Tailwind CSS, Framer Motion, i18next

Mobile: React Native, Expo, Hermes, Firebase Cloud Messaging, Google Play Console, Apple TestFlight

State & APIs: TanStack React Query, Zustand, Context API, REST APIs, Axios interceptors, JMAP, OIDC / OAuth2, TOTP MFA

Backend & Data: FastAPI, MySQL, Frappe / ERPNext APIs, Power BI, Frappe Insights

DevOps & Testing: Git, GitLab CI/CD, Docker, Turborepo, Vite, Cloudflare Pages / Workers (OpenNext), Playwright, Vitest, SonarQube, Sentry, Linux CLI

Design & Tools: Figma (wireframes, prototypes, design systems), Photoshop, Taiga, Browser DevTools, ChatGPT / Claude for AI-assisted development

WORK EXPERIENCE

Sagasoft Technologies Pvt Ltd
Aug 2024 – Present

Frontend Developer & UI/UX Developer (Frontend Team Lead)

- Rebuilt the frontend ecosystem in Vue.js for better modularity, performance and consistency; designed responsive Figma UI/UX for Chat, Mail, Drive, Calendar, Billing, My Account, Organisation and Dashboard.
- Led the frontend team: mentored junior developers, assigned tasks, reviewed pull requests and ensured on-time delivery; worked with the product team to refine UI specifications.
- Improved maintainability with reusable components, cleaner folder structure and optimized rendering; implemented UI flows for Billing, Organisation Management and User Roles & Permissions.
- Integrated backend APIs for email migration, domains, groups, aliases and billing; debugged CORS, payload and API response issues.

Sagasoft Technologies Pvt Ltd
Feb 2024 – Jul 2024

Data Analyst Intern

- Built Power BI dashboards for IPL analysis, political insights and business intelligence.
- Created interactive dashboards in Frappe Insights, improving internal reporting workflows.
- Cleaned, validated and transformed datasets; automated reporting for cross-functional teams.

PROJECTS

1. Saga Mail Client – Native Mobile & Web
Sep 2026 – Oct 2026

Languages & Stack: TypeScript, React Native (Expo), Next.js, JMAP, Stalwart Mail Server

Tools: Firebase FCM, Cloudflare Workers (OpenNext), Hermes, Google Play Console, Xcode / TestFlight, GitLab

- Contributed to the architecture audit, white-labeling and rebranding of the enterprise email client for Android and iOS.
- Store release engineering: 4096-bit RSA production keystores, Android manifest hardening, Apple export-compliance declaration and optimized Android App Bundles (.aab) with Hermes bytecode.
- Real-time push: integrated FCM and verified a TypeScript push relay bridging Stalwart JMAP push events to mobile devices.
- UI/UX: 4-tier glanceable email list with preheader sanitization, HSL keyword-tag color hashing matching webmail, quick-filter chips and fixed sidebar tag state leaks.

- Deployed webmail on Cloudflare Workers (OpenNext); resolved Stalwart TLS / 525 handshake and CORS issues; tested CalDAV, CardDAV and WebDAV sync; evaluated Tauri 2 for desktop and mobile.

2. SagaID Mail Admin Console Apr 2026 – Sep 2026

Languages & Stack: TypeScript, React, TanStack React Query, Axios, Tailwind CSS, Vite, i18next

Tools: Sentry, Playwright, jsPDF, html2canvas, ResellerClub API, GitLab

- Built email routing and rule UIs: forwarding rules, team aliases, group and member management with server-side debounced search and pagination.
- Developed domain verification workflows for MX, SPF, DKIM and DMARC records with registrar error handling and nameserver guidance.
- Billing: invoice generation with client-side PDF export, wallet top-ups, auto-payments and plan upgrades; fixed user filtering, user count and multi-tenant billing address bugs.
- Added weekly and hourly load charts, Sentry exception tracking and Playwright end-to-end tests.

3. Saga Auth, Profile & Single Sign-On (OIDC / MFA) Mar 2026 – Sep 2026

Languages & Stack: TypeScript, React, SCSS Modules, Turborepo, Authentik OIDC

Tools: Vitest, Axios, Cloudflare Pages, GitLab

- Built a web-to-mobile OIDC handover bridge that detects mobile requests, intercepts redirects, fetches access tokens and passes credentials to the app via postMessage / JS channel.
- Implemented TOTP MFA enrollment and reset with active-device verification, SMS OTP recovery, and a session dashboard with active devices, "sign out everywhere" and audit logs.
- Fixed stale-cookie race conditions during MFA; added global 401 Axios interceptors; applied strict HTTP security headers on Cloudflare Pages.

4. SagaID Marketing & Product Websites May 2026 – Sep 2026

Languages & Stack: TypeScript, Next.js (App Router), Tailwind CSS, Framer Motion

Tools: OpenNext, SonarQube, Calendly, Live Chat, GitLab

- Built responsive landing pages, interactive pricing matrix, savings calculator, live chat and Calendly demo scheduling.
- Created GDPR/Privacy, Terms, Cookie Consent, Mail Usage and Anti-Abuse policy pages; fixed SonarQube accessibility, code smells and performance issues.

5. Saga Billing & ERPNext Integration May 2026

Languages & Stack: JavaScript / TypeScript, REST APIs, Frappe / ERPNext

- Integrated Frappe/ERPNext APIs for invoice lifecycle, transaction history, wallet deductions and custom invoice PDF designs.

6. Adspectra Website | Naama Ooru Personal / Freelance

Languages & Stack: React, FastAPI (Python), MySQL, HTML, CSS, JavaScript

- Adspectra (adspectra.in): website development, hosting and deployment.
- Naama Ooru: local commerce and service-booking platform with React frontend, FastAPI backend and MySQL database.

EDUCATION

MCA – Alagappa University 2024 – 2026

B.Sc Statistics – Thiruvalluvar University 2020 – 2023

CERTIFICATIONS

- **Power BI** – Great Learning, Jobaaj (2024) | **Python & AI/ML** – VGLUG (2024)
- **SQL** – Udemy (2023) | **Excel with AI** – Office Master (2023)
- **Digital Marketing Bootcamp** – BTREE (2023) | **Problem Solving** – HackerRank (2023)

FOSS & COMMUNITY CONTRIBUTIONS

- VGLUG Volunteer (2023 – Present)
- Hacktoberfest Contributor – 2023 & 2024 (badges earned)
- FOSS Tools Talk – Speaker / Attendee (2023); Software Freedom Day – Contributor (2023)
- Raspberry Pi Stall – Exhibitor (2024); FOSS Hackathon – Tamil TTS (2024)
- India FOSS 3.0 – Bengaluru (2023); Chennai FOSS 2.0 – Participant (2024)
